MERAKI

Activity Overview

Commission 1

Project Description

Play:Disrupt and In Bristol Studio delivered commissions 1 & 2 for the Temple Quarter Development Framework Public Engagement.

Commission 1 'Roaming Commission': Artist(s) to design and deliver creative pop-up activity alongside Bristol City Council's consultation drop-in events. The commission will provide an alternative, creative way for people to engage with the draft TQ Development Framework and share their thoughts and ideas

Play:Disrupt devised a pop-up engagement intervention, which consisted of three different activities, offering different ways to engage with the TQDF

- Landmarking (description of activity on page 4)
- Consequence Scanning (description of activity on page 16)
- Roots (description of activity on page 26)

Events delivered

- Redcliffe Hill, Thursday 26th January 2pm–5pm. Approx 30 participants
 - Walking commuters, adults (young and old), local residents
- The Dings Park, Saturday 11th February 11am–2pm. Approx 20 participants
 - Young professionals, local residents, younger adults, children in park
- Sparke Evans Park, Tuesday 14th February 2.30pm–5.30pm. Approx 35 participants
 - Walking commuters, families, children, older people, local residents
- Easton Community Centre, Thursday 16th February 4pm–6pm. Approx 35 participants
 - Children, third sector organisation representatives, local residents
- Totterdown Tesco, Wednesday 22nd February 3pm–6pm. Approx 40 participants
 - Walking commuters, older and younger people
- The Friary, Thursday 23rd February 12pm–3pm. Approx 30 participants
 - Professionals working locally, aged 20–40, commuters
- Session for the Centre for Deaf and Hard of Hearing, Monday 27th February 11am–1pm. 6 participants
 - Mix of ages, mostly over 50 years

Activity Overview

Commission 2

Project Description

Commission 2 'Place-based': Artist(s) 'in residence' in a set location(s) within the development area (*Barton Hill) to work with communities, groups and networks already engaged in the area, as well as convening publicised opportunities for people to drop in and get involved in creative engagement activities and share their thoughts and ideas on the draft TQ Development Framework.

In Bristol Studio and Studio Meraki devised a series of events which were delivered at locations in Barton Hill (In Bristol Studio, Wellspring, St Luke's Church keep warm cafe).

Each event consisted of:

- Sharing information about the Temple Quarter Development Framework
- A creative activity (ceramic candle stick making, print making)
- Discussion about St Philips and the Temple Quarter development
- Engagement worksheet to collect responses from participants

Participants were invited to consider the Temple Quarter Development whilst they were making their creative response. People added text to ceramics and fabric printing, as well as images of what they hoped for the future.

All participants were then invited to a final celebratory feast. The feast tables were decorated with the candle sticks, ceramics, printed table cloths and napkins which were made through the engagement period.

Full description of activities on page 32.

Events delivered

- Women's event, ceramic making at In Bristol Studio. Wednesday 15th February. 13 participants
- Women's event, ceramic making at In Bristol Studio. Wednesday 22nd February. 14 participants
- St Luke's Church, Keep warm cafe lunch. Wednesday 1st March. 7 participants
- Wellspring art group, Wednesday 1st March. 6 participants
- Family fun day at In Bristol Studio. Saturday 25th February. 11 participants
- Celebratory meal at Cafe Conscious, Barton Hill

Themes & Learnings

Commission 1 & 2

Themes which arose across all of the engagement activities:

- Mixed feelings about industrial space in St Philips: a recognition of need for industry and the benefit of current central location for the city and jobs, as well as a recognition of the damage relocation of industry will have on another area. However, most people identified that the noise and dirt of industries in St Philips would not support the creation of a pleasant neighbourhood, and could bring about friction
- Connecting green spaces (particularly Sparke Evans Park and the Feeder Canal) with active transport routes
- Integrate nature & trees into developed areas (including TMS) to mitigate heat & fumes
- Safety throughout (lighting/path maintenance)
- Independent businesses in St Philips and at Temple Meads Station (with economic infrastructure to support and incubate them eg. low rent/reduced rates)
- St Philips Marsh is perceived as an uncomfortable place for pedestrians and cyclists- this needs to be one of the biggest changes to the area
- During development phase minimise impact on residents by only closing roads on weekdays only and maintaining reasonable working hours
- Scheme for jobs for local people during development phase
- High proportion of social rent and affordable housing
- Improved public transport and better joining up of the public transport network
- Consistent wayfinding for pedestrians from TMS to the rest of the city
- Amenities close to communities
- Encourage fewer car journeys
- Good facilities and amenities (GPs, dentists, schools)
- Celebrate local history
- Open up access to water through river walks, parks and on water activities
- Create space for communities (community centres, public squares, free to access space)
- Celebrate and give space and opportunity to the culture and creativity of Bristol. Maintain existing spaces like Propyard, Motion and creative makers spaces
- Cafe culture at Temple Meads Station (but without over-commercialisation)
- Make TMS more of a destination, celebrate it's history & make information accessible
- Public squares at Temple Meads Station were popular

Landmarking St Philips

Engagement events by Play:Disrupt at: Easton, Redcliffe Hill, Sparke Evans Park, The Dings Park and Totterdown focussed on St Philips Marsh.

Landmarking was used as a quick way to engage and an entry point into the TQ Framework engagement.

People responded to three questions, writing responses on flags and adding to a loose part within a circle.

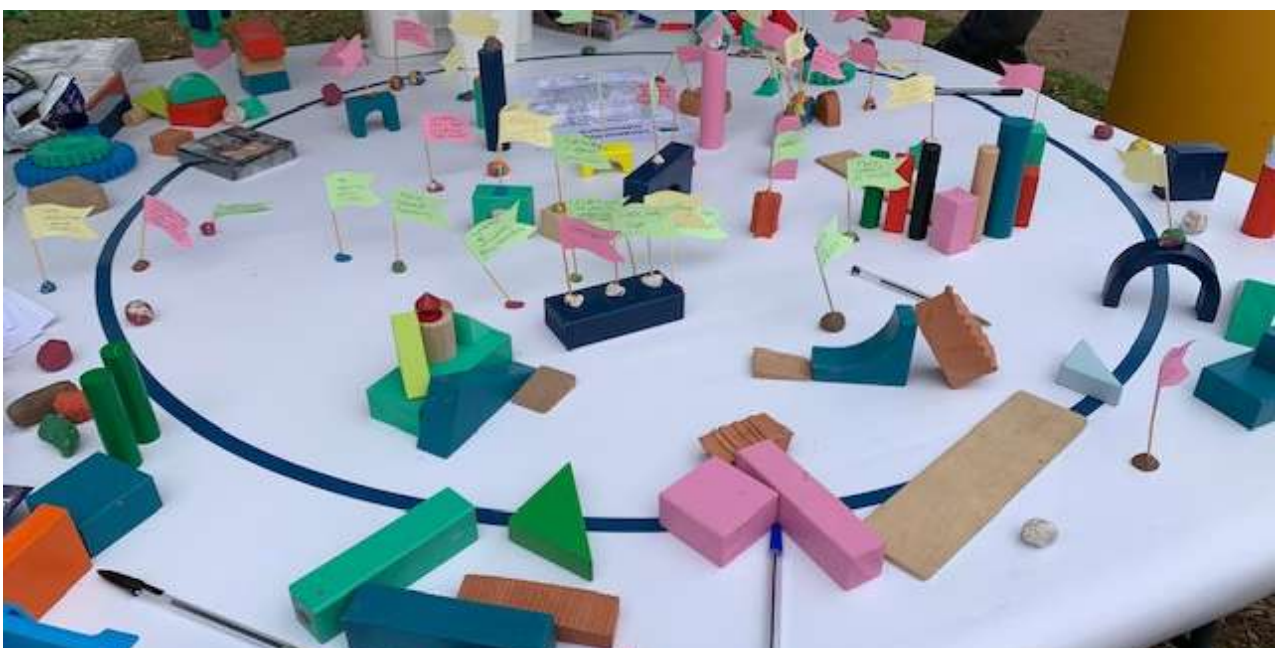

The questions were:

- What brings you joy in your neighbourhood?
- What comes to mind when you think of St Philips Marsh now?
- What would you gift to St Philips Marsh of the future?

Themes in order of popularity
(number of times theme mentioned)

Green space (36)
Community (18)
Creativity (14)
Facilities & infrastructure (9)
Shops/cafes/restaurants (8)
Housing (7)
Safety (7)
Connectivity (5)
Play space (5)
Lighting (3)
Water access (3)

These questions feed into the consultation question: Within the St Philip's Marsh area can you highlight anything that's important to you in the future. **Full responses in Appendix 1.**

Green space

Location	Gift to St Philips
Easton	Greenspace brings joy
Easton	green space
Easton	Lots of green corridors
Easton	Green spaces
Totterdown	Shared open space
Totterdown	A park
Totterdown	Green space
Totterdown	Greenspace
Totterdown	Greenery
Totterdown	As natural/green as you can, keep it free living, free spirit
Sparke Evans Park	Big trees, ducks, wildlife
Sparke Evans Park	Green spaces connect people together with nature (clearly needed during the pandemic)
Sparke Evans Park	Access to green space
Sparke Evans Park	Parks
Sparke Evans Park	Green space
Sparke Evans Park	Green space
Sparke Evans Park	Adventure playground, trees
Redcliffe Hill	Nature
Redcliffe Hill	Park square- bring people
Redcliffe Hill	Nurture people's creative spirit
Redcliffe Hill	Park

Location	Gift to St Philips
The Dings Park	Better upkeep of park
Totterdown	Green, car free, open, bicycle friendly
Totterdown	Freedom, self starters, greenery, upcycling
Totterdown	Fantastic nature- mental health
Totterdown	Haven for nature- allotments
Totterdown	Access to food growing
Totterdown	Allotments, but also small scale food planters near houses
Sparke Evans Park	Nature reserves with bicycle paths
Sparke Evans Park	Green space- cycling paths
Sparke Evans Park	Public spaces that are green and good for sports
Redcliffe Hill	Wildlife
Totterdown	Easily accessible outside spaces
Sparke Evans Park	Lots of green spaces
Totterdown	Walkable green spaces
The Dings Park	Greenspaces

Community

N.B. Some 'community' responses are about the people who make up a community, and some are about space for community

Easton	Diverse neighbourhood
Easton	The people in my community
Easton	People Places
Totterdown	Community and cultural adaptability
Sparke Evans Park	Socialising
Sparke Evans Park	Community cohesion
Redcliffe Hill	Friendly space
Redcliffe Hill	Sense of community
Redcliffe Hill	Joined up and integrated into community
The Dings Park	Lots of different things with volunteers, bike, library of things
Totterdown	Mixed, intergenerational
Totterdown	Intergenerational
Easton	Community spaces
Redcliffe Hill	Community space
Totterdown	Community 'free to use' spaces
The Dings Park	Space to meet
The Dings Park	Community spaces
Easton	A chance to embrace already established communities rather than adopt gentrification

Creativity

Easton	Free art activities (facilitated by paid freelancers)
Easton	Artists
Easton	Creative projects that invite the public to directly express themselves
Totterdown	Community activities- art and performance
Totterdown	Arts and cultural centre
Totterdown	Let the local artists paint murals, make it colourful like the rest of Bristol
Totterdown	Arts centre- live music, independent, cinema
Sparke Evans Park	Space for artists and creatives to thrive
The Dings Park	Theatre/library/canteen eg Storyhouse Chester
The Dings Park	Large cultural centre to draw interest and direction for the area
Sparke Evans Park	Culture
Easton	Community arts activities and sense of togetherness
Sparke Evans Park	Arts culture and community space
Redcliffe Hill	Creative, independent, buzzy

Facilities & Infrastructure

Easton	Public toilets
Totterdown	Social infrastructure, Drs, schools etc
Totterdown	NHS prvision, walk in centre
Totterdown	Not just flats- GPs, schools etc
Totterdown	Facilities
Totterdown	Facilities and amenities
Totterdown	GPs
The Dings Park	Library
Sparke Evans Park	Leisure centre and youth club

Shops, cafes & restaurants

Easton	local shops, cafe, cemetary
Totterdown	Cool shops and restaurants
Sparke Evans Park	exciting unique shops and organisations
Sparke Evans Park	Places to food and to meet friends
Sparke Evans Park	Indie eateries
Redcliffe Hill	Shops
The Dings Park	Local indy shops
The Dings Park	Variety of small businesses make a social space

Housing

Sparke Evans Park	Nice houses
Redcliffe Hill	Improved housing
Totterdown	Lower rise (8 max) buildings
Easton	Mixed population (housing for younger and older)
Totterdown	Social housing
Totterdown	Affordable housing, social housing
Sparke Evans Park	Good amount of social housing

Safety

Redcliffe Hill	Friendly and safe
The Dings Park	Safety- fewer places for people to conceal themselves
The Dings Park	Children feel safe to play in the street
Totterdown	Safety
Redcliffe Hill	Safety
Redcliffe Hill	Safe, friendly community
Totterdown	Community security (home permanency [of tenure])

The most common response was about it being industrial, it's under-development, that most people do not have reason to go there, that it lacks nature (however some people note the river path and the presence of a Kingfisher). People also mentioned Motion, the Fruit Market and creative workspaces.

industrial

nature concrete work space run spooky veg deserted forgotten dump cool cause tatty grounded polluted night market connections

kingfisher traffic green river unsafe railway keep work feeder warehouses lost inaccessible barren low feels lonely open motion avoid fruit walk maze dusty grade

dirty jungle wasted lacking visit businesses cool

Landmarking Temple Meads Station

Engagement events at: The Friary
and with The Centre for Deaf and
Hard of Hearing focussed on
Temple Meads Station.

People responded to three questions,
writing responses on flags and adding to a
loose part within a circle.

The questions were:

- What brings you joy in your neighbourhood?
- What comes to mind when you think of Temple Meads Station now?
- What would you gift to Temple Meads Station of the future?

Themes in order of popularity
(number of times theme mentioned)

Green space (10)
Accessibility (5)
Connectivity (5)
Cycle infrastructure (4)
Cafes, bars & shops (4)
History & character (3)
Venue for activity (3)
Food (2)
Nature (2)

Full responses in Appendix 2.

Green space

The Friary	Open space
The Friary	Green space
The Friary	Gardens- places to sit
The Friary	Central green spine
The Friary	Integrated green spaces
The Friary	Green and healthy and safe

The Friary	Ease of access to green
The Friary	Maintain and enhance green spaces
The Friary	Open public space
The Friary	fun amazing public space with fountains, murals, greenspace

Accessibility

Centre for Deaf	Quiet ticket office and environment and accessible for deaf eg T-loop and BSL
Centre for Deaf	Inclusive spaces – not segregated
Centre for Deaf	The wording and numbers on train time displays are very close together, need more space to be readable
Centre for Deaf	Improving information- make it more clear. Should also have a porter to help deaf
Centre for Deaf	Assistance lounge – App, text people

Cycle Infrastructure

Centre for Deaf	Cycling facilities, but bikes should go slower
Centre for Deaf	Separate bike lanes on wide walkways
Centre for Deaf	Several medium car parks at all entrances
The Friary	Indoor secure cycle parking

Connectivity

The Friary	Public transport- tourist links to commercial and historic parts
The Friary	Shuttl to city centre- underground and regular (train/tram)
Centre for Deaf	New bus station
Centre for Deaf	Another set of lifts inside the station down the platform
Centre for Deaf	More buses available

Cafes, Bars & Shops

The Friary	Cafes bars, something to do
Centre for Deaf	Champagne bar :D
Centre for Deaf	More cafes
Centre for Deaf	St Pancras style shops and cafes

History & Character

Centre for Deaf	Keep history where possible and display historical facts
Centre for Deaf	History of Brunel- character
The Friary	Keep the beauty in tact

Consequence Scanning

We selected proposals from the TQ Framework consultation to test and interrogate with participants.

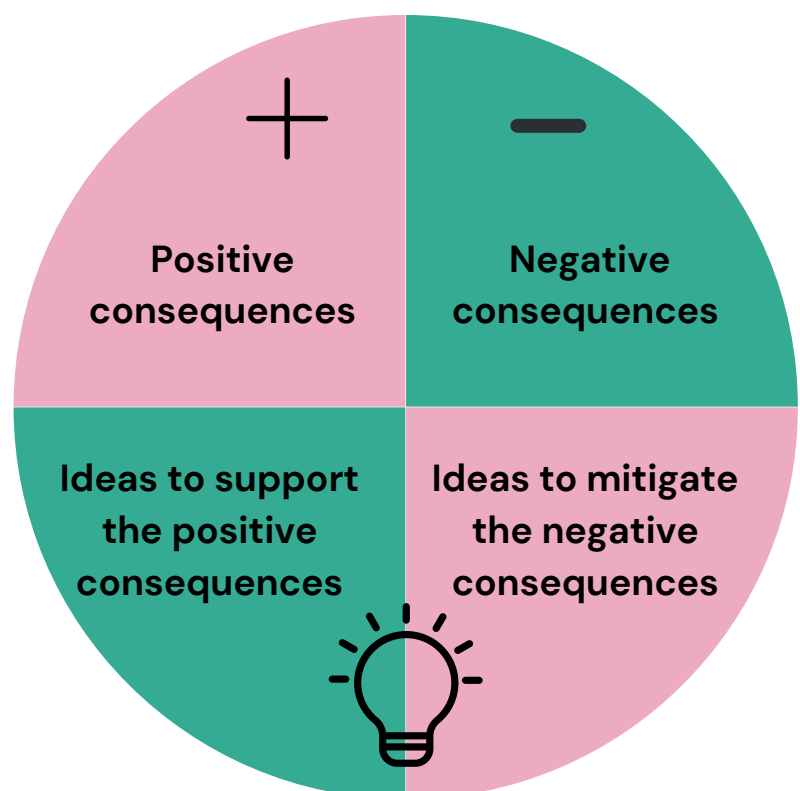

Consequence Scanning is a practice developed by *doteveryone* as a way for organisations to consider the potential consequences of their product or service on people, communities and the planet.

Play:Disrupt and BCC selected 17 proposals across the TQ development areas. More proposals were taken from St Philip's Marsh.

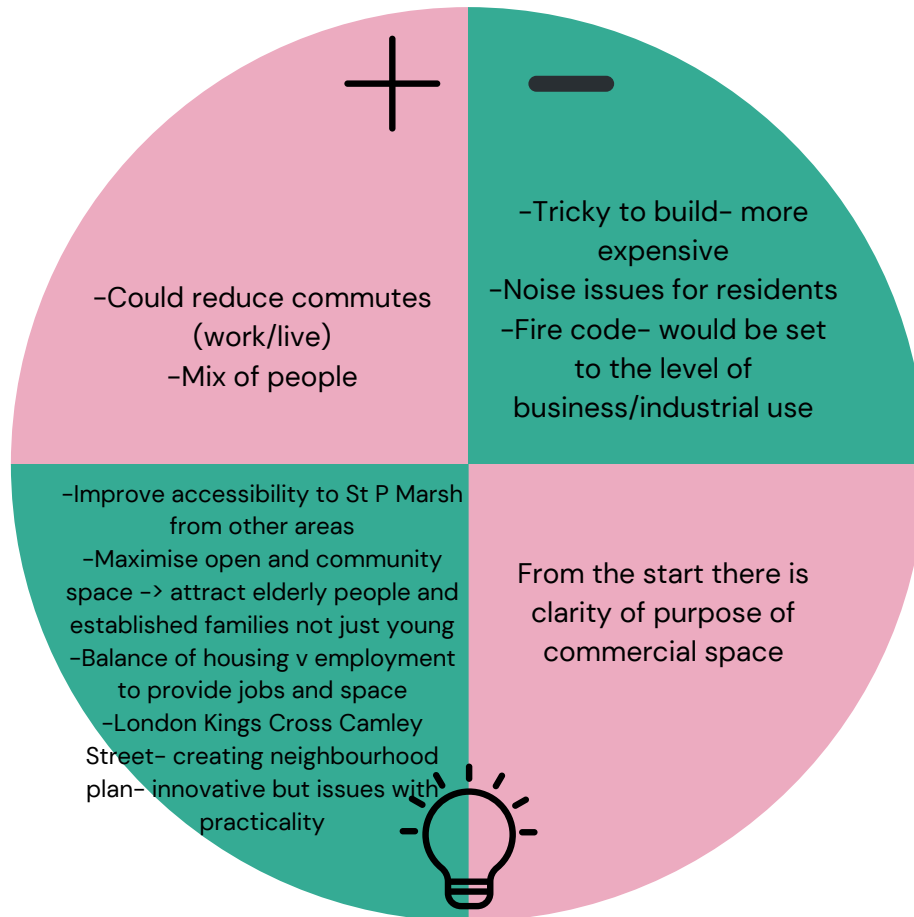

The below diagram illustrates the process.

Below are example responses to each proposal selected from the TQ Development framework. Responses were made by individuals, pairs or small groups who participated in the engagement activities.

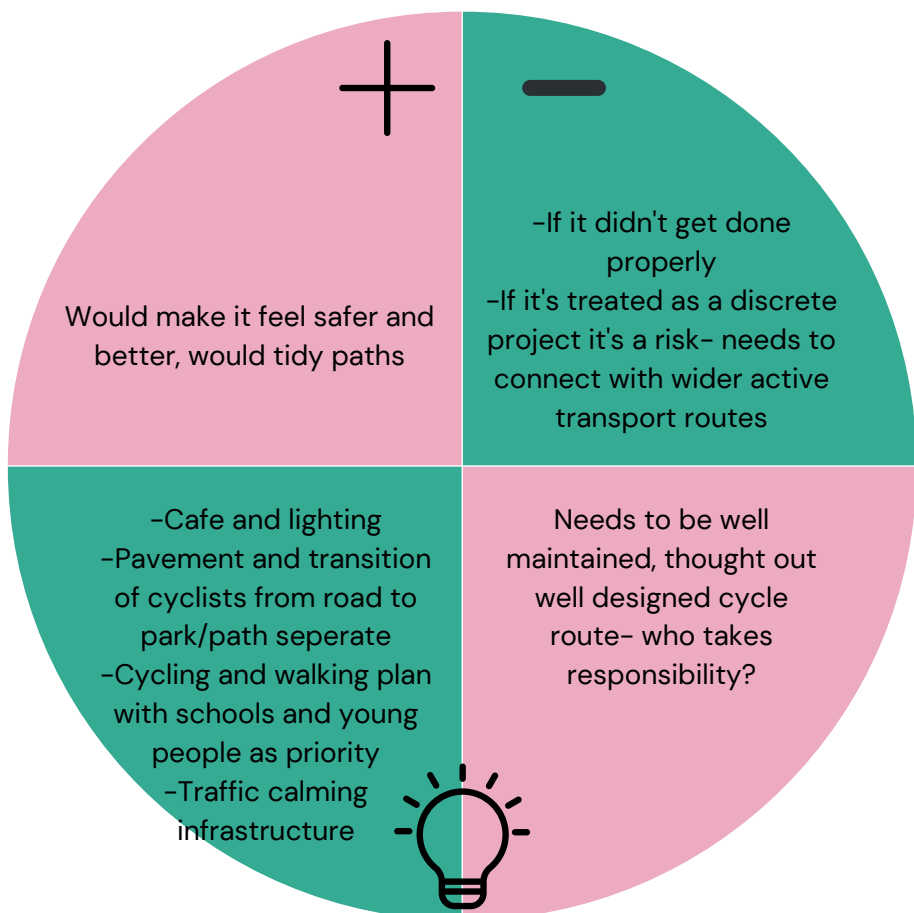

Play:Disrupt selected a response to each proposal, choosing the most fully explained response. Further responses are available in **Appendix 3**

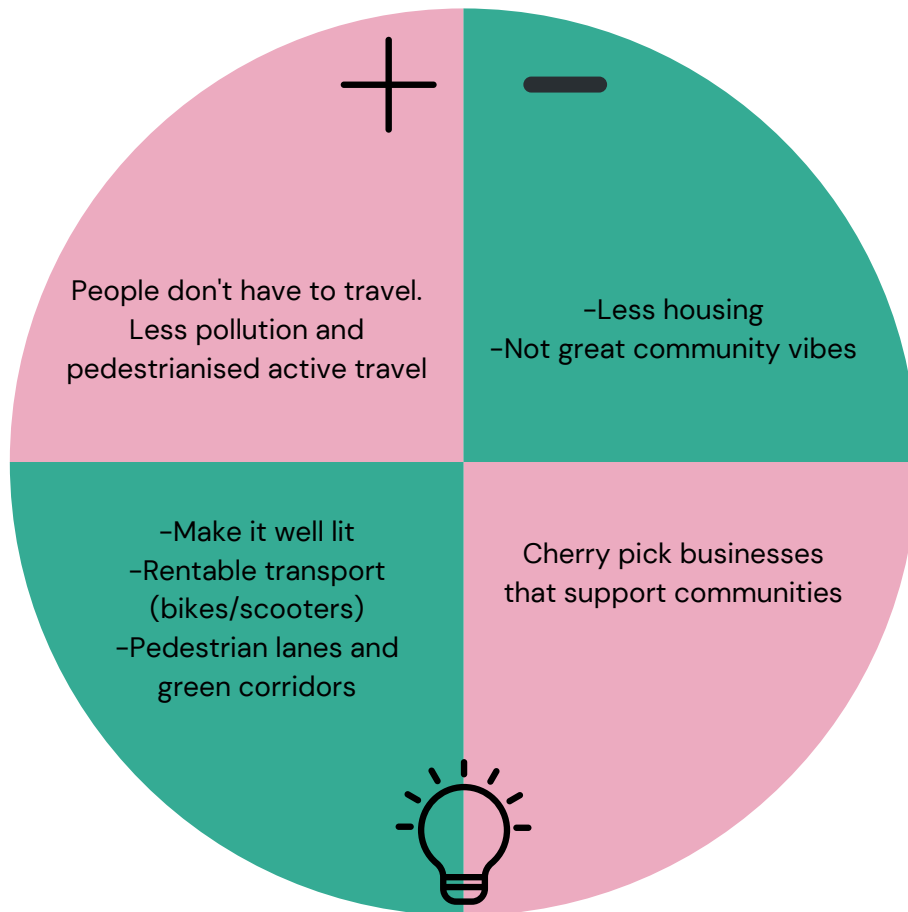

St Philips Marsh: Vertical mixing of buildings (where each floor has a different type of use eg. housing, commercial, leisure, employment)

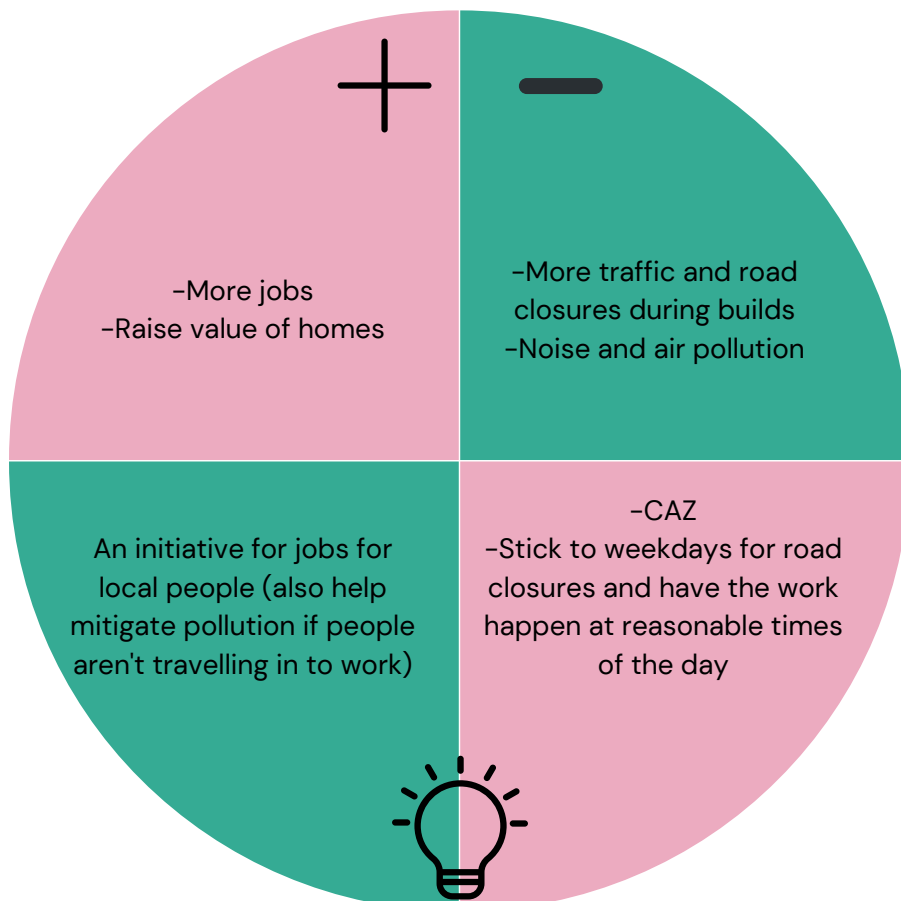

St Philips Marsh: Sparke Evans Park- a regenerated community park with mature trees, recreation spaces, children's play spaces and a riverside cafe

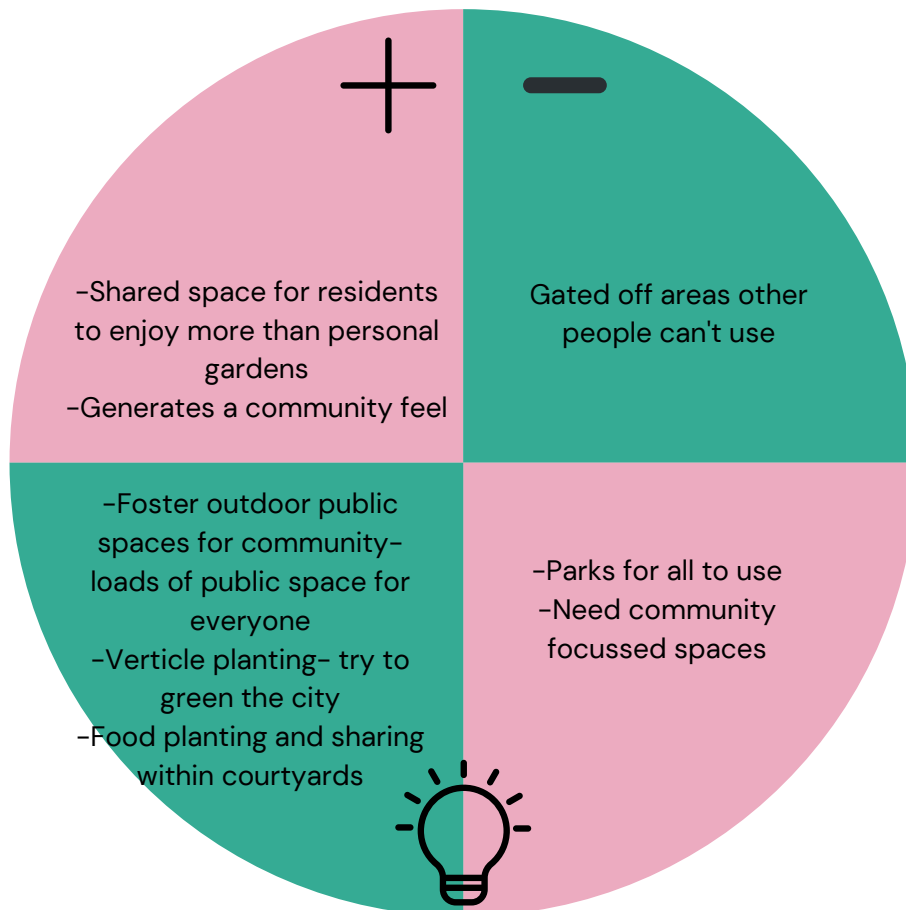

St Philips Marsh: Integrate residential development with employment, commercial or leisure uses within each street block

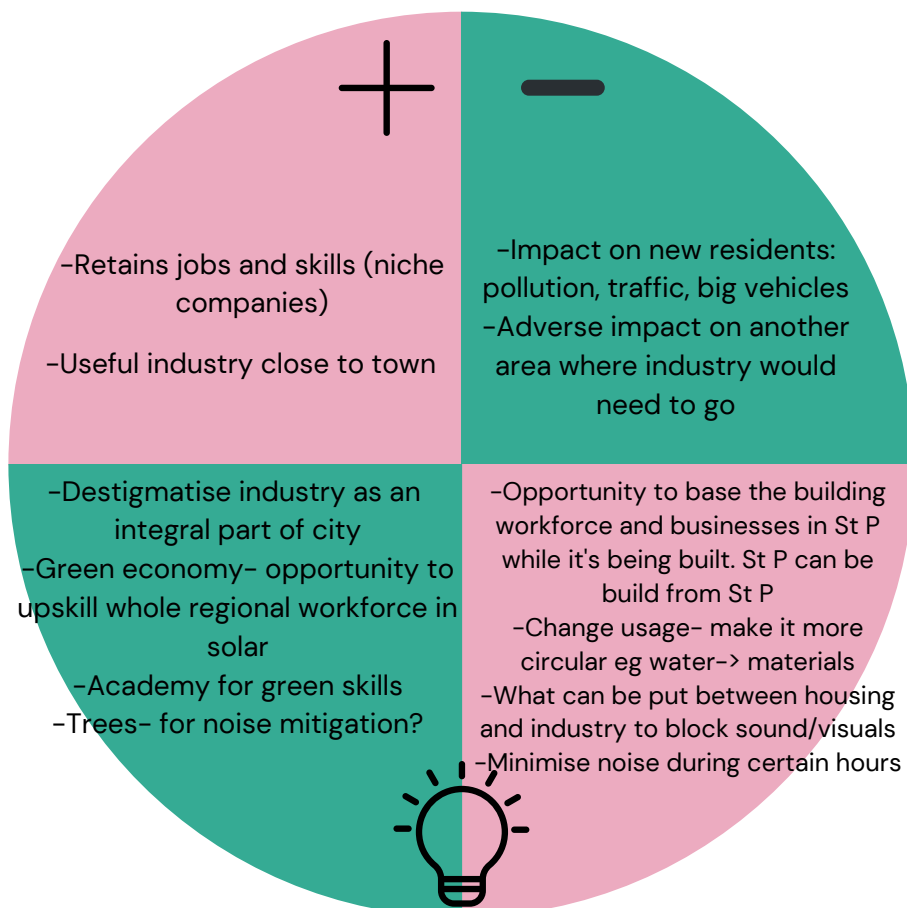

St Philips Marsh: Establish a leading innovation district– with a variety of employment spaces including accommodation for start ups, established SME's and larger scale businesses focussed on science and technology...etc

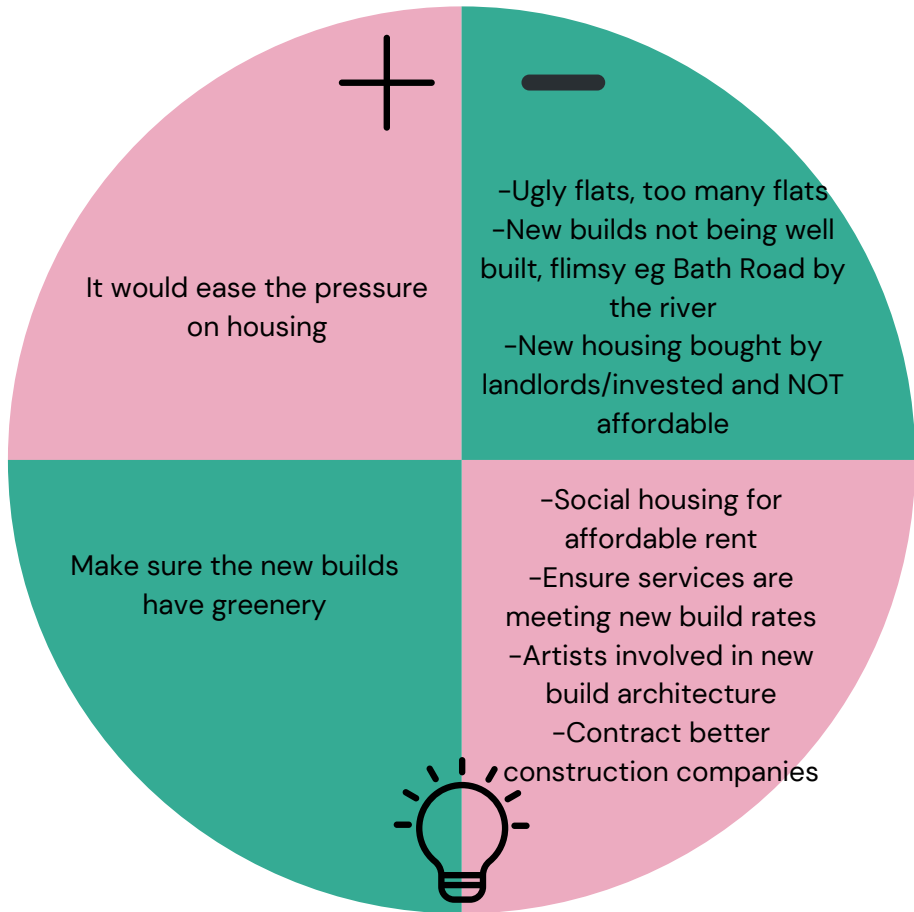

St Philips Marsh: Housing blocks contain inner courtyards for use by residents

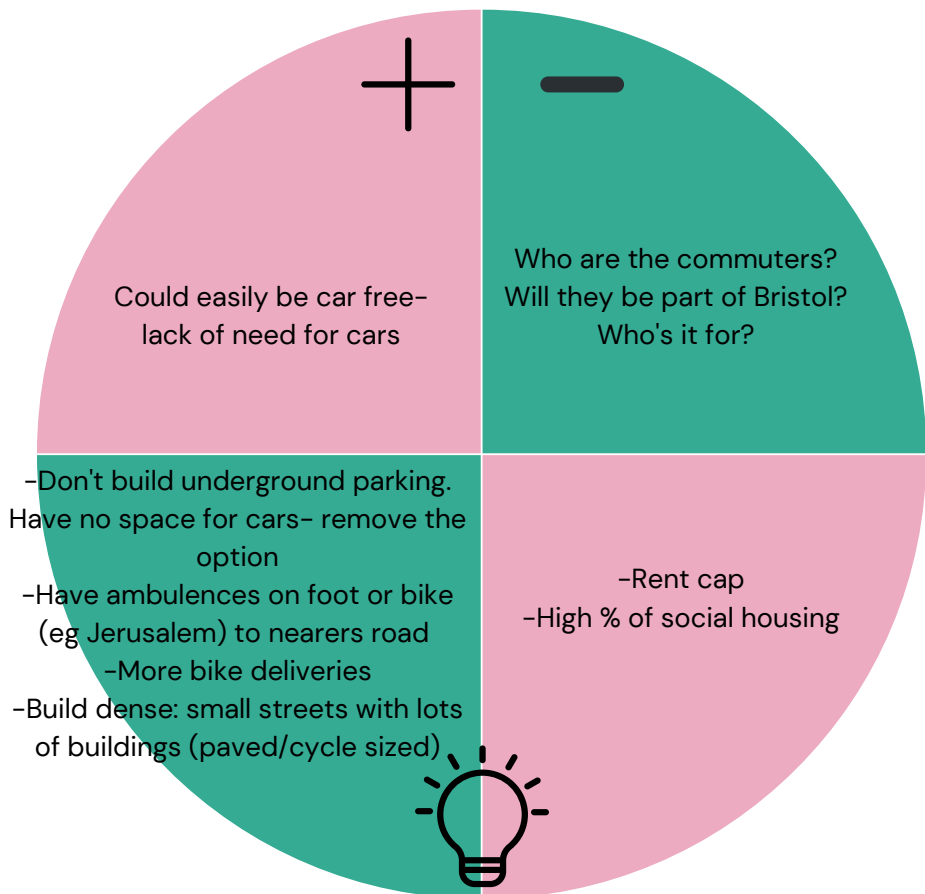

St Philips Marsh: Maintain some of the existing industrial land for employment

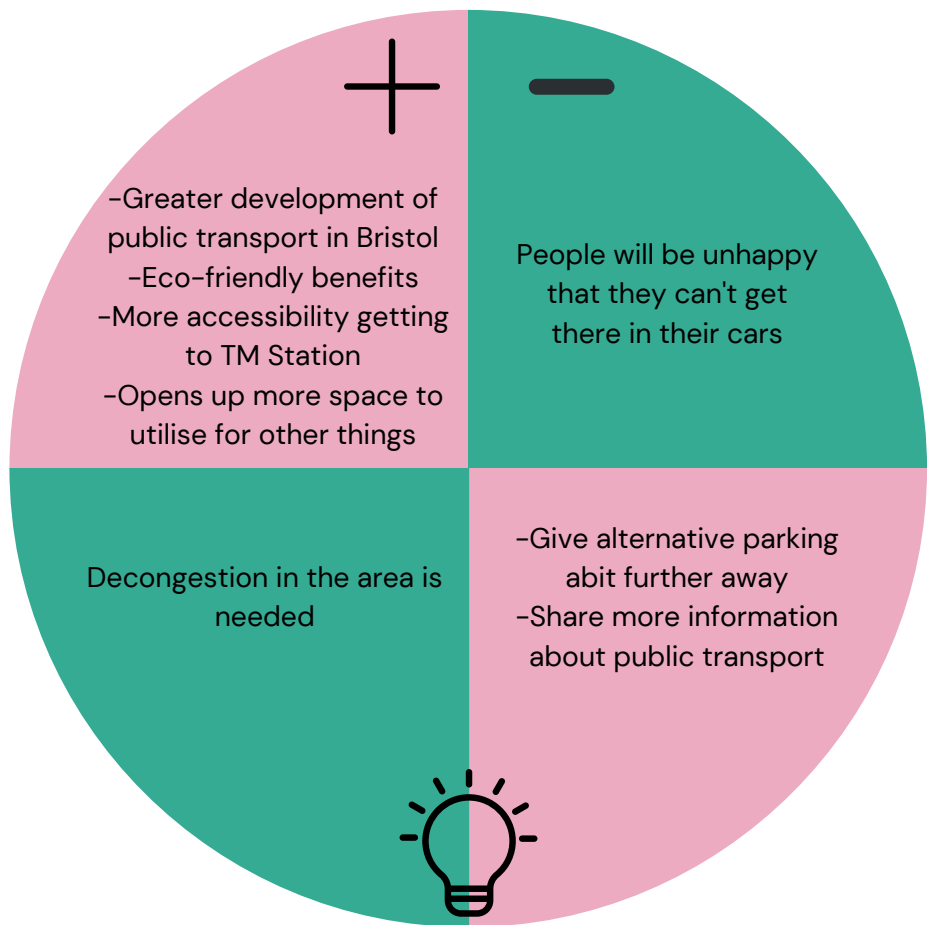

Temple Gate: High density, city centre living accommodation will provide homes for professionals working locally or commuting

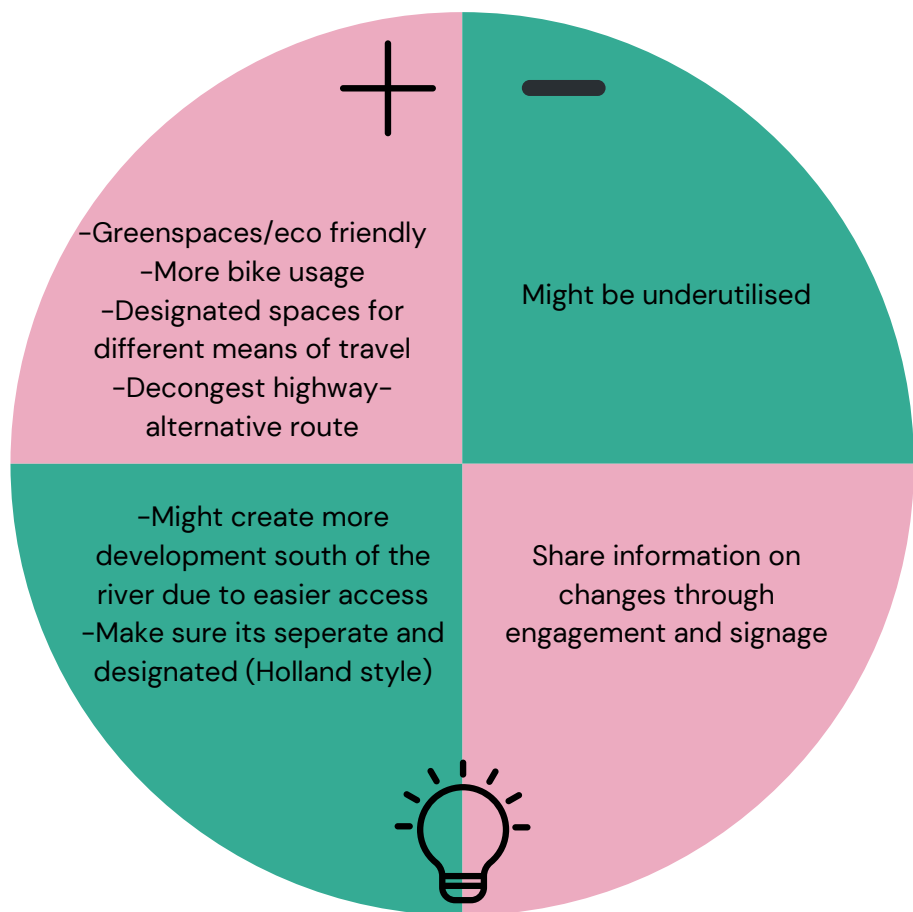

Temple Gate: High density, city centre living accommodation will provide homes for professionals working locally or commuting.

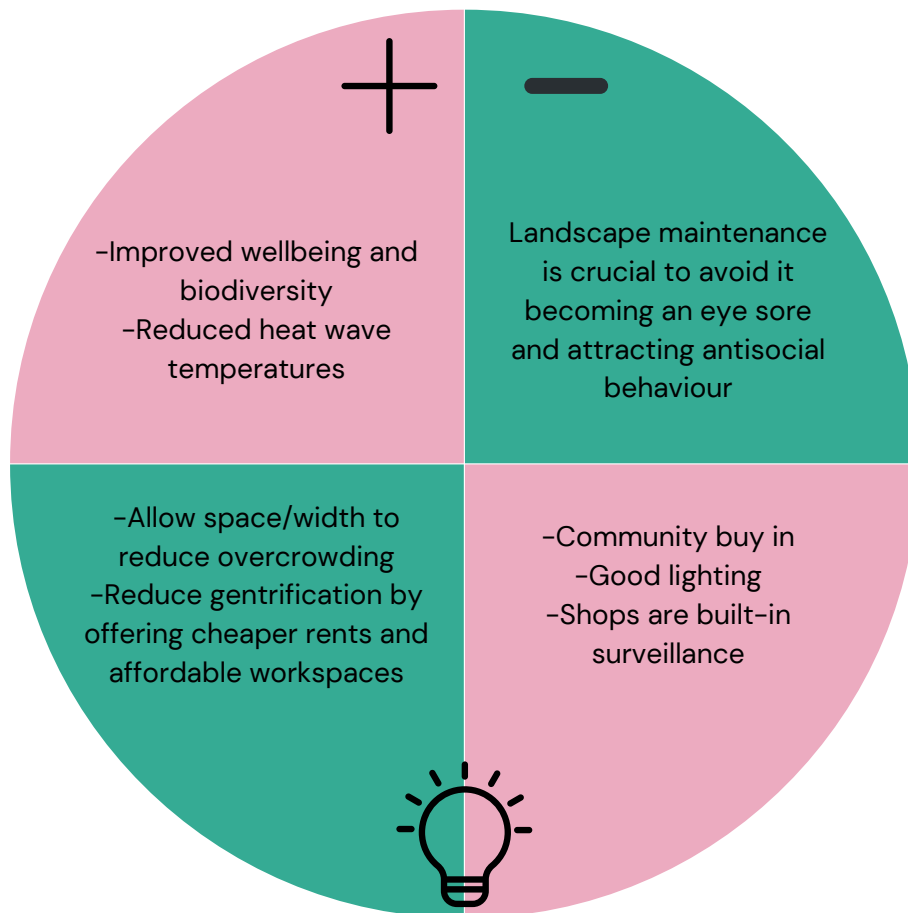

Temple Gate: A focus on low carbon transport opportunities, connecting to active and public transport routes, with minimal levels of private car parking

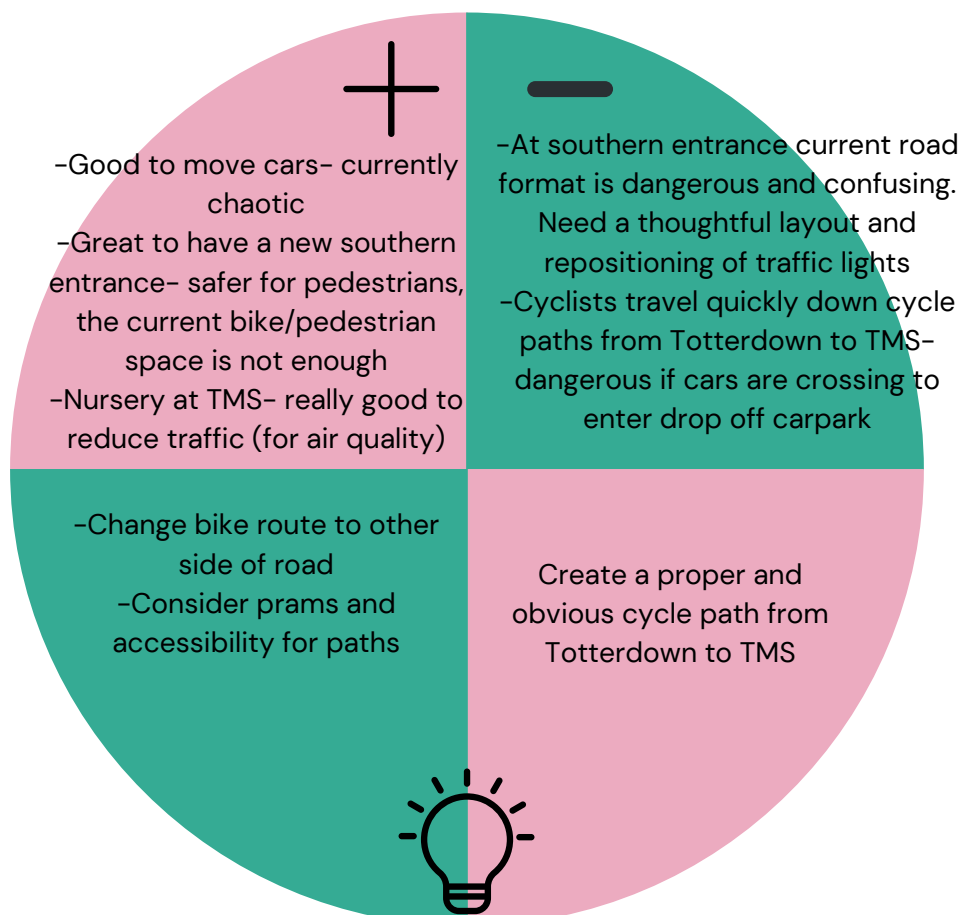

Temple Gate: Away from the main highway, small streets and spaces will be designed for pedestrians, bicycles and vehicles

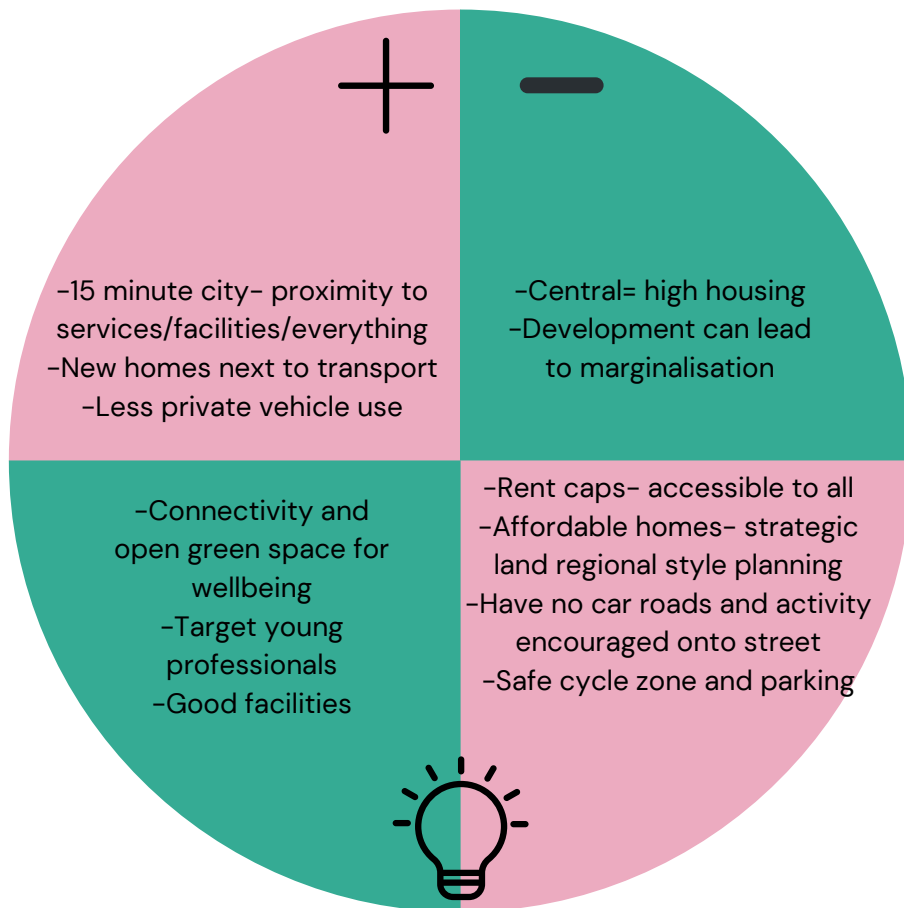

Temple Gate: Courtyard areas will be introduced, including green infrastructure to provide a pleasant environment

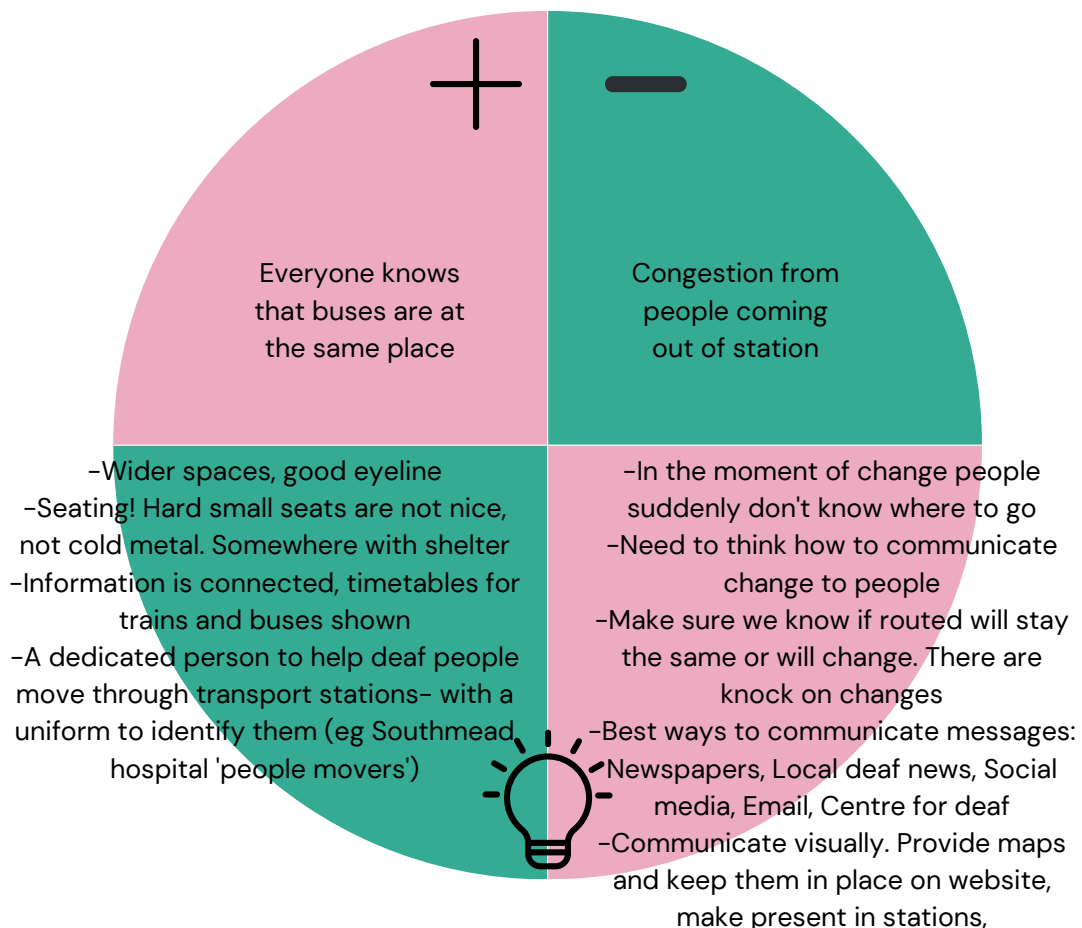

Friary North: A private car drop-off loop from Temple Back East

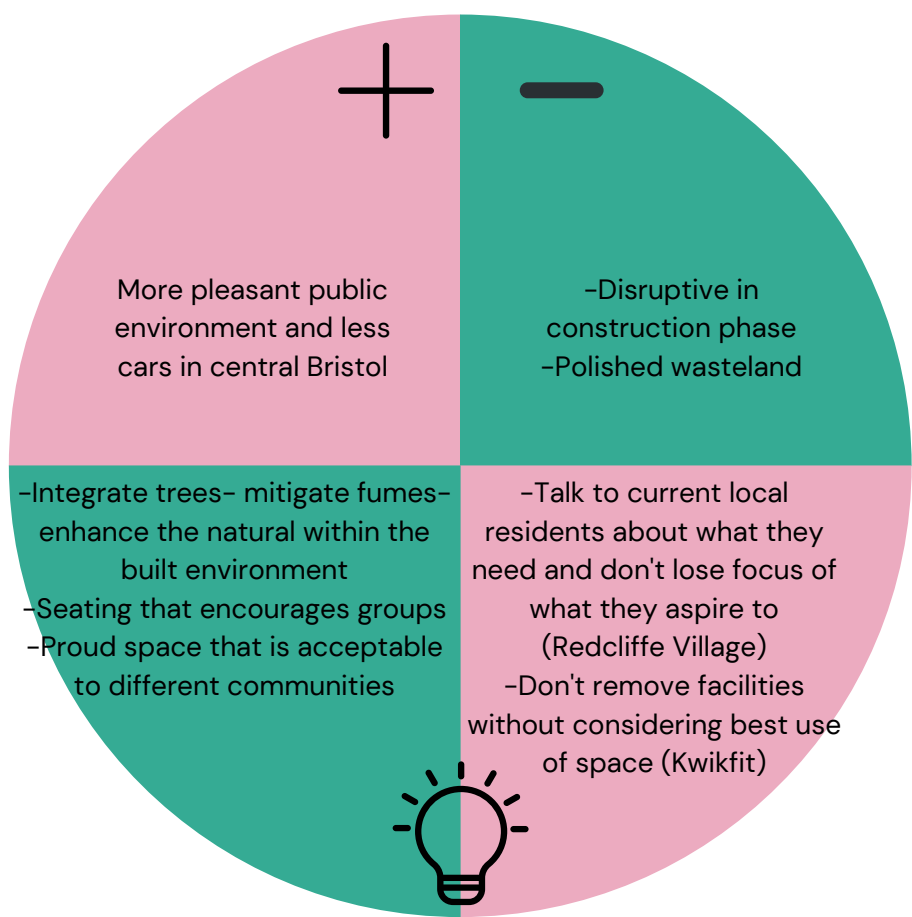

Friary North: New development buildings, including housing/offices and commercial spaces at ground floor

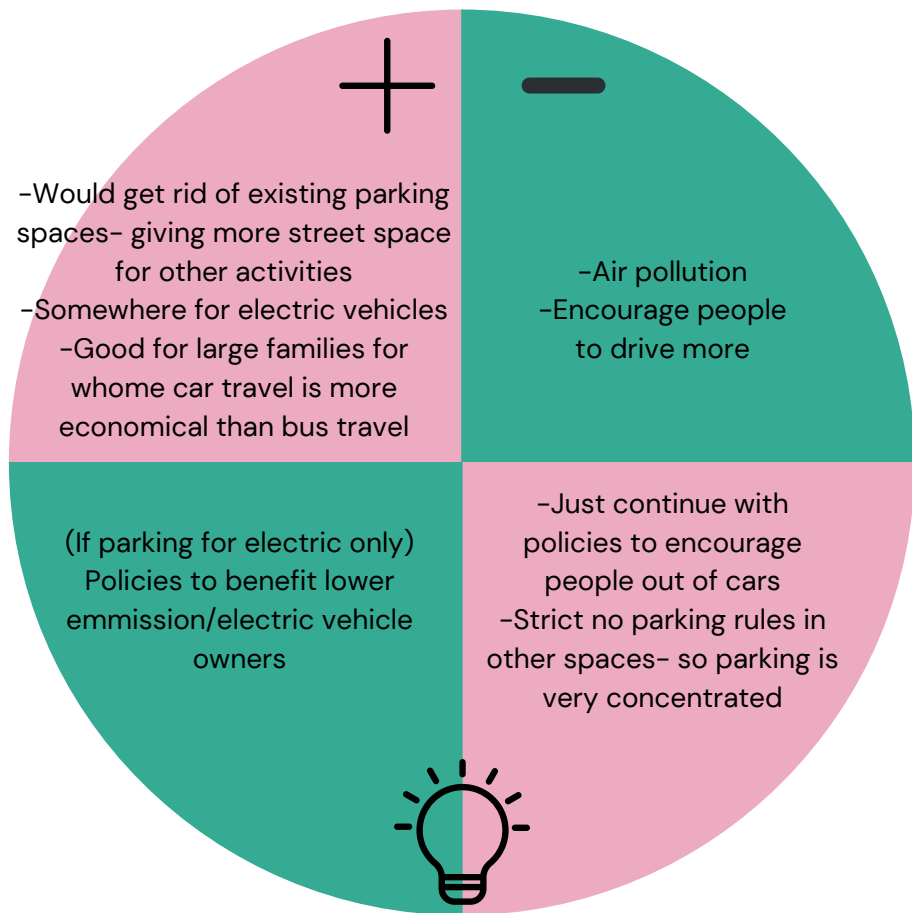

Friary North: Relocation of the bus stops from Station Approach to the south end of the Friary, including bus shelters

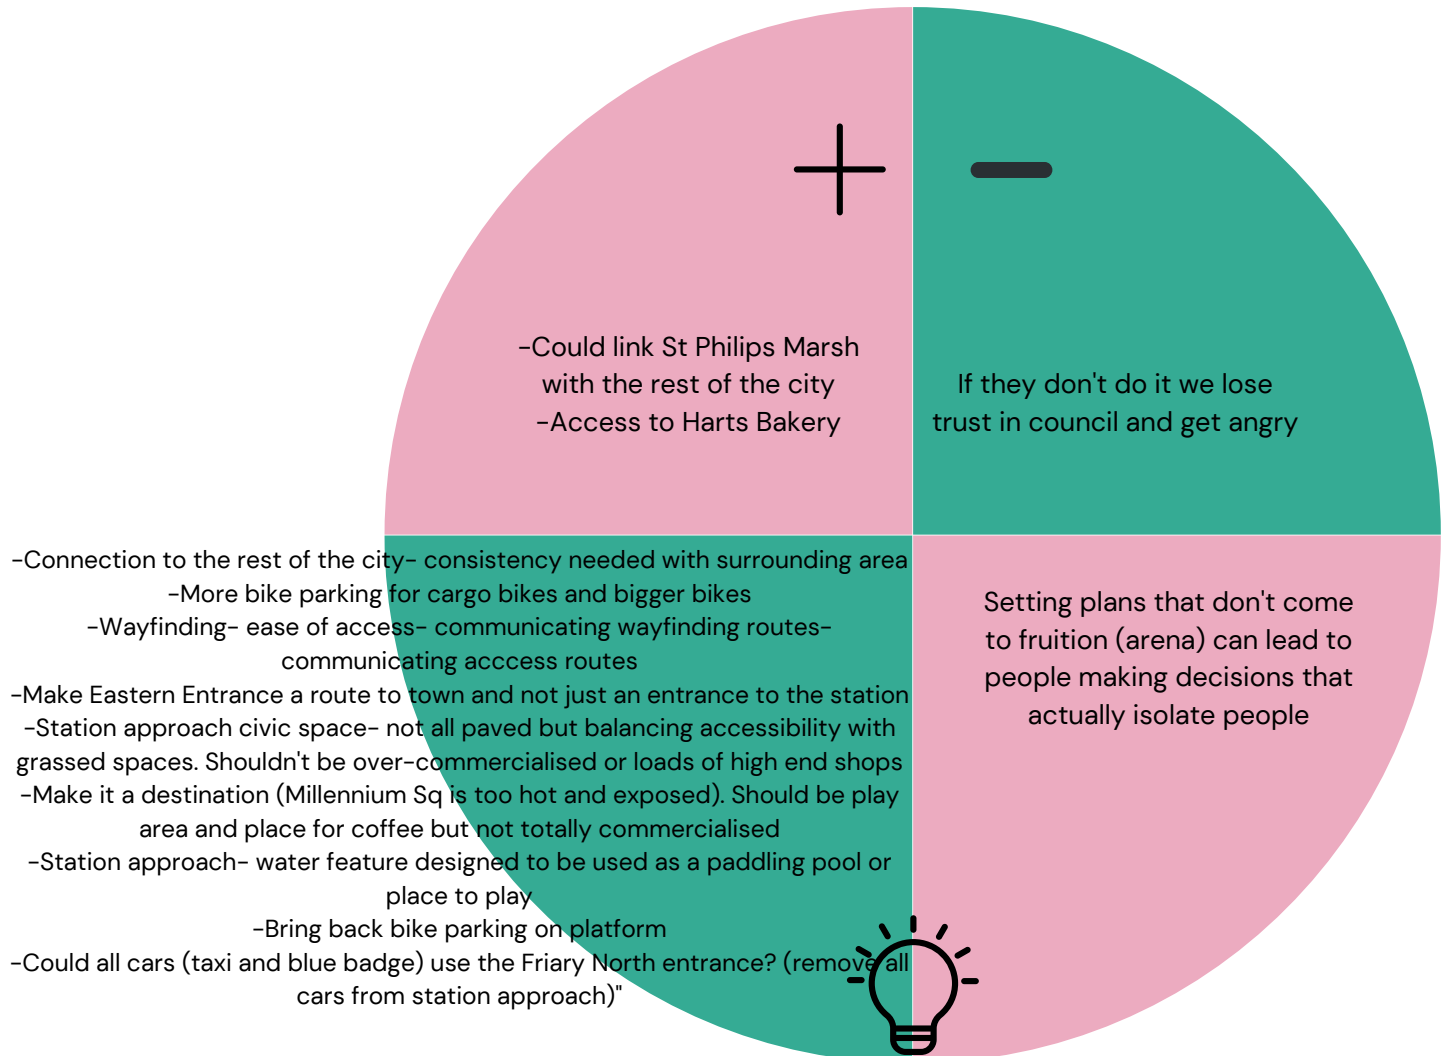

Friary and City Gateway: New civic spaces at the south end of the Friary, celebrating the historic Passenger Shed and at Station Approach improving the setting of Brunel's historic station

City Gateway: a new multi-storey carpark at the Southern Gateway

City Gateway: Proposed new entrances (Eastern Entrance and Southern Gateway) as well as improvements to the Northern Entrance and Station Approach will make it much easier to access the station from all parts of the city

Roots

Skeleton proposals for interventions and activities, rooted in locality and designed to bring about change.

Roots is a quickfire planning game using a set of cards. Facilitators talk to participants about what change they would like to see in the area, what activity could bring about that change, and a possible place for it to take place. Alongside this, participants are prompted to consider what they would need to carry out this activity, what already exists within the community to support it, and any considerations to take into account when delivering this to ensure its success.

For the TQ engagement, we created a spinning wheel which allowed people to select a geographical area from the framework and a Guiding Principle. A facilitator led the participant through the process.

Below, Play:Disrupt have selected example responses, selecting one response for each Guiding principle in each area. (NB. not every Guiding Principle was selected through the spinning wheel for every area). Responses were made by individuals, pairs or small groups who participated in the activities. The most fully explained responses were selected. Further responses are available in **Appendix 4** (separate document).

Method

1. Spin the wheel to select the Guiding Principle
2. Spin the wheel to select the TQ location
3. What is an activity that could bring about this Guiding Principle (change) in the selected area?
4. What resources or inspirations already exist to support this activity?
5. What do we need?
6. What are the important considerations for this activity to succeed?

Themes from Roots

Create pleasant & thought through walking and cycle routes
 Avoid building tall
 Invest in Feeder Canal path
 Invest in facilities & amenities
 Greenery/nature
 Creativity & night time economy
 Celebrate history
 Affordable housing
 University X Industry incubators
 Markets (particularly food markets)
 Fewer cars
 Independent business
 Celebrate locality
 Cultural events
 Outdoor gathering/seating space

Headlines

Place

St Philips Marsh

Activity

Pleasant cycle/walkways

Change

Quality spaces

Resources

What is already here?

- Feeder cycle path
- Secondary school
- Too much traffic
- Paintworks is good- would connect
- Industrial-reusing existing buildings

What does it need?

- Balance of amenities- shops/life
- Greenery and vegetation

Considerations

- Reduce traffic
- Avoid large through road
- Avoid too tall buildings- takes the human scale away
- Pedestrianised neighbourhoods connecting onto paths
- Joined up low cost transport system

Headlines

Place

St Philips Marsh

Activity

Music- as a vehicle.
Share/join/create

Change

Vibrant and creative communities

Resources

What is already here?

- Community of St Philips - residents BIM
- Different communities of music
- Night time music venues

What does it need?

- A focussed covered space for the performance of music
- Bandstand
- Expression- break from the everyday
- Intergenerational

Considerations

- How to build common vision of new housing and night time music
- Different forms of built places to house different music offers
- Connecting and sharing music between places and people- Tordes Lisbon!
- Initiatives to connect with young people

Headlines

Place

St Philips Marsh

Activity

Tell the history through the place names

Change

Quality places

Resources

What is already here?

- The History of St Philips Marsh
- Diverse communities
- Land
- Radical history groups
- The university- impact projects

What does it need?

- Plaque to tell the story of place
- Actually affordable housing

Considerations

- Connect projects into real spaces, homes, community spaces
- Utilise cultural institutions of the city to design the neighbourhood
- Consider and include stories from all/many cultures
- Involve the community
- Relate the naming and design of place to the history

Headlines

Place

St Philips Marsh

Activity

Collaboration with University for industry

Change

Successful economic development

Resources

What is already here?

- Amazing science incubators
- Train station- transport
- Businesses double up space-use for pop ups and community events

What does it need?

- Affordable start up space
- Internships with local businesses-to upskill students

Considerations

- Connect with local schools
- Connect Barton Hill and St Annes with opportunities

Headlines

Place

Temple Meads (all of public realm)

Activity

Event like Edinburgh Frings (busking etc)

Change

Vibrant and creative communities

Resources

What is already here?

- Music training orgs eg St Pauls
- Local food producers

What does it need?

- Food-locally produced, diverse culturally
- Offer opportunities for young people to busk etc

Considerations

- Things for YP to do (YP friendly)
- Destination!
- Activating an underused space

Headlines

Place

Temple Meads Station

Activity

More of a destination Bike lanes- ease of accessibility- walking and cycling. Make it easier to walk- a better place to wait

Change

Quality places

Resources

What is already here?

- Bristol to Bath cycle path
- Flowers used to create advertisements
- Space- flat space, bleak space
- It is functional- should be social
- Convergence of cultures

What does it need?

- Entrance to the station
- Benches and bus shelters
- Infrastructure
- Cycle storage
- Pedestrian routes
- Bus routes
- Needs to be attractive and natural
- Tell the story of the place creatively

Considerations

- Really include multicultural groups, histories and connections
- Free transport on Sunday's
- Make buses cheaper and free for YP
- Use wood and natural materials
- Add greenery to make it nice to move through
- Clear incentives- art/good space/ social reason to go
- Well resourced £ continued support

Headlines

Place

Temple Meads Station

Activity

More of a destination- a better place to wait

Change

Quality places

Resources

What is already here?

- Something like boulevard space eg Victoria Street
- Liverpool St Station is a good example
- eg. Clifton Down Station

What does it need?

- More places to eat and drink
- A family space for babies and children
- Light, airy, with plants and seating

Considerations

- Expand the city centre
- Got to get rid of the car
- Sympathetic design
- Make it easier to travel with kids

Headlines

Place

City Gateway

Activity

Town planners and traffic planners to assess area 247

Change

Integrated and connected

Resources

What is already here?

not answered

What does it need?

- More small independent businesses
- Monitor all different modes of transport
- Prioritise active travel

Considerations

- Lighting
- Better traffic control/lighting etc
- Bike and pedestrian priorities

Headlines

Place

City Gateway

Activity

More independent affordable businesses- pop up food market

Change

Successful Economic Development

Resources

What is already here?

- Already have businesses, pasty shop deli etc
- Make use of the amphitheater and the public space

What does it need?

Events to draw people in

Considerations

- Keep local areas local while bringing more activity into urban areas

Headlines

Place
City Gateway

Activity
Venues for evening recreation

Change
Vibrant and creative communities

Resources

What is already here?

Local teenagers have nothing to do

What does it need?

- Independent things, space to sit outside
- Green spaces for local teenagers and facilities eg something for all ages

Considerations

not answered

Headlines

Place
Friary North

Activity
Street Market (craft/flea/trade/food)

Change
Quality Spaces

Resources

What is already here?

- Location close to station and buses
- Offices- customers

What does it need?

- Public access, easy and safe (road!)
- Infrastructure and vendors
- Stuff customers want

Considerations

- Utilise local character and involve and include and give space for local vendors

Headlines

Place
Friary North

Activity
More greenery, make it less harsh and more inviting

Change
Integrated and connected

Resources

What is already here?

Incredible Edible

What does it need?

- More playful structures (like swings)
- More friendly spaces
- Open up water access

Considerations

Create welcoming feel

Headlines

Place

Friary North

Activity

**Outdoor seating, more
makets and street food**

Change

**Vibrant and creative
communities**

Resources

What is already here?

- Take inspiration from Harbourside- cafes and bars for meeting

What does it need?

- Places to eat and drink
- Places for outdoor entertainment

Considerations

- High visual quality (Stratford- diversity of live/work events)

Headlines

Place

**Temple
Gate**

Activity

**Event space-
music**

Change

**Vibrant and
creative community**

Resources

What is already here?

- Beat social at Echo Worlds

What does it need?

- Cafe where people are invited to play
- Lower key night out (library music)
- Live music venues for experimental music

Considerations

- Get the word out to people
- Invitation to community to make it

Headlines

Place

Temple Gate

Activity

Independent local businesses. Array of coffee bars and restaurants. Financially incentivise with reasonable business rates

Change

**Vibrant and
creative
communities**

Resources

What is already here?

- Harts Bakery.
- Farrow.
- North Street model.
- Cargo

What does it need?

- Have a community rep body to guide what businesses come in
- Better transport links- take more people there

Considerations

**Reasonable
rents**

Commission 2 Making & Meal

In Bristol Studio and Studio Meraki focussed on engaging their local community of Barton Hill. They approached local organisations and activity groups to engage service users and local residents.

The workshop sessions allowed space for participants to hear more about the development proposals, to ask questions, and crucially to discuss it amongst themselves whilst being creatively engaged in print making or ceramics.

Responses were gathered through a work sheet activity which asked:

- What in your neighbourhood brings you joy?
- Do you ever travel to St Phillips? What do you go there to visit?
- What things do you travel to get to in Bristol?
- If you could gift one thing to the future community of St Phillips what might it be?

Responses were also gathered through the very objects people made; in the words and images which were included in the ceramic and printmaking outputs.

Full responses to all questions included in **Appendix 5 (separate pdf doc)**

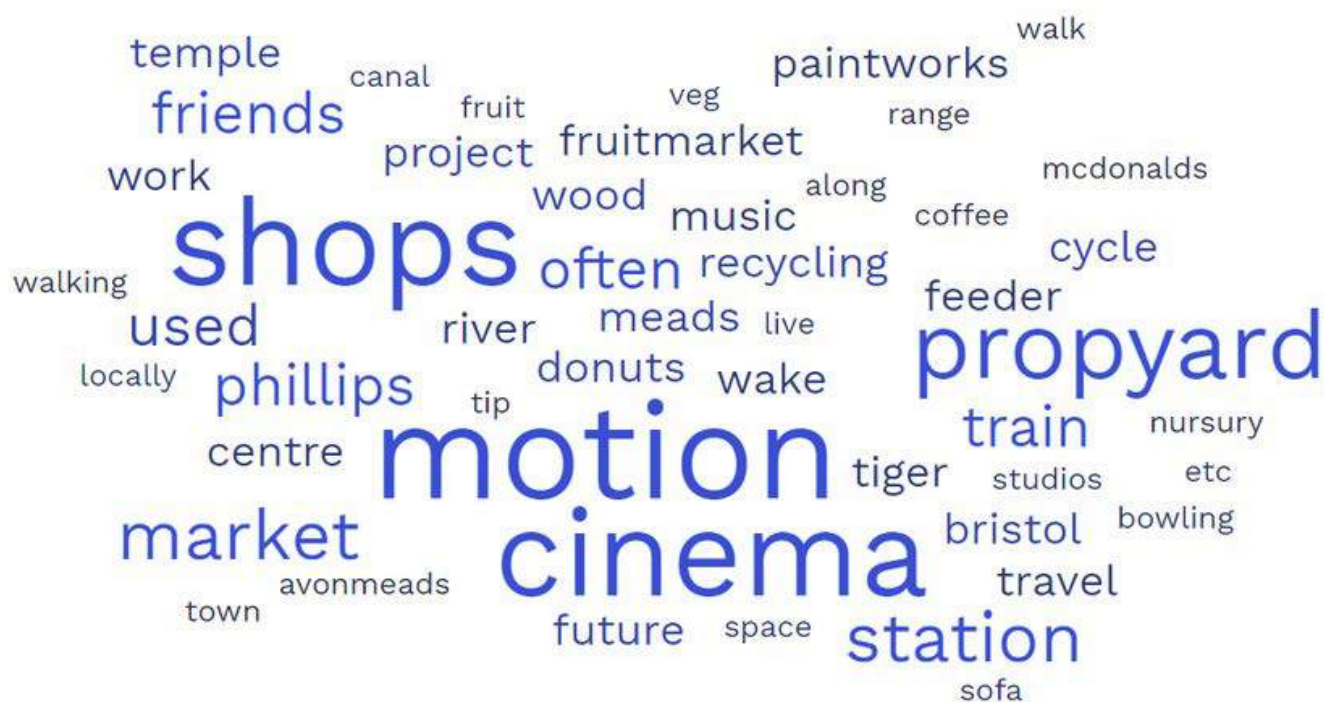

Themes in order of popularity (number of times theme mentioned)

Green space (18)
Community (13)
Infrastructure & facilities (9)
Play (7)
Water access (7)
Creativity (4)
Safety (4)
Wellbeing (3)
Housing (3)
Youth provision (3)

Word cloud of the themes from participant's gifts to St Philips of the future

Word cloud of the responses to : Do you ever travel to St Phillips? What do you go there to visit?

**Word cloud of the responses to :
What things do you travel to get to in
Bristol?**

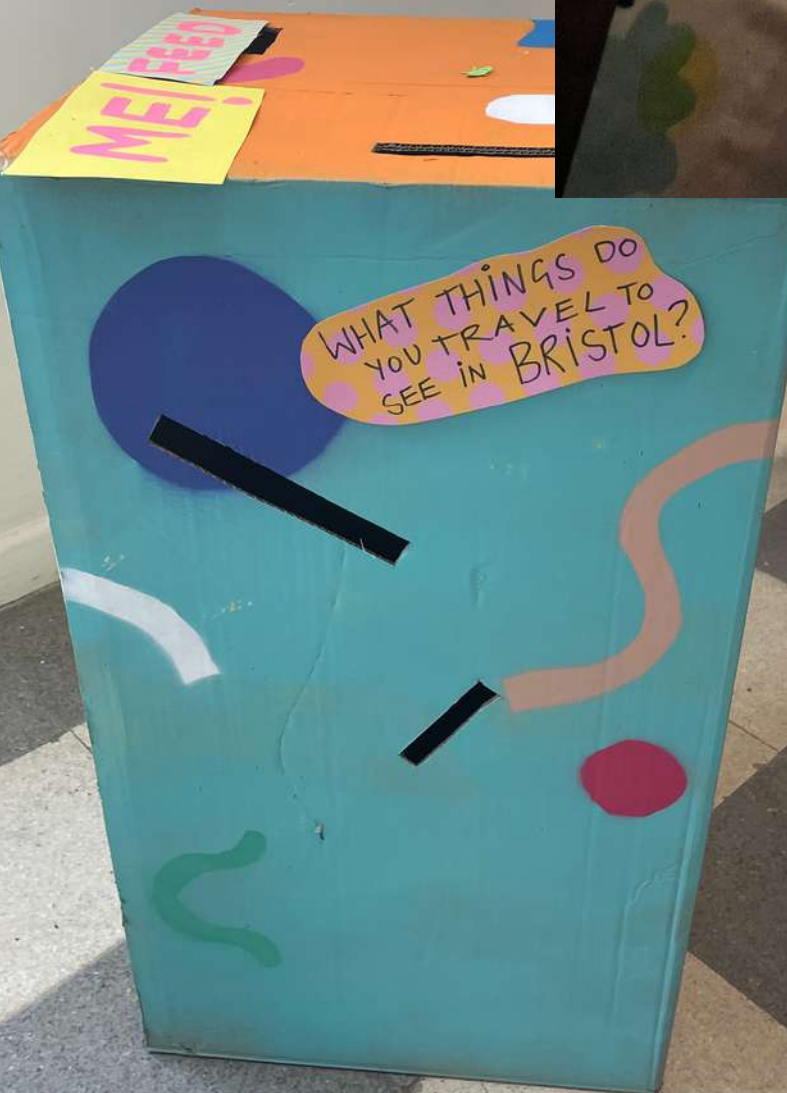

**Word cloud of the responses to:
What in your neighbourhood brings you joy?**
